EDUCATION

Jun 2021 - Present	Astrophysics, Faculty of Mathematics, University of Belgrade	Belgrade
Oct 2021 - Present	Law, Faculty of Law, University MB	Belgrade
Sept 2019 - Jun 2020	Stefan Nemanja Gimnasium	Belgrade
Sept 2016 - Jun 2019	International School Savremena IGCSE, A levels, AS levels	
Nov 2022 - Nov 2023	ERASMUS+ Exchange Programmes	Greece, Spain, Poland
December 2022	Modern Science Communication, Center for the Promotion of Science - Tailored exclusively for Serbian master's, doctoral students and emerging researchers, the interdisciplinary course places open communication in the context of today's science and its importance for society and stands as the pioneering initiative in its field, selecting only 25 participants from a pool of hundreds. - Trained under Dr. Darko Donevski (Ph.D. in Astrophysics) to develop methodologies for distilling complex physical paradigms into actionable communication strategies for decision-makers and the public. - This programme has been hosted by esteemed international institutions, including the UNESCO Institute in Trieste, ICTP, University of Toronto, and CPN, Belgrade.	

EXPERIENCE

Jul 2025 - Present	Youth Researcher, <i>Commission on Space and Defense, VOYCE</i>	Italy
	- Conducting research on EU space and security frameworks, focusing on the technical intersections of strategic autonomy and orbital cybersecurity. - Translating complex technical priorities and sector-specific data into structured reports, facilitating high-level discussions on space policy and emerging technologies. - Partnering with a global network of peers to develop data-backed proposals for EU space expansion and security integration. - Contributing deep-dive analyses on emerging threats and technological opportunities within the EU space sector for professional publications and outreach.	
Jan 2025 - Aug 2025	Research Intern, <i>CONVINCE (Vinča Institute of Nuclear Sciences)</i>	Serbia
	- Conducted multidisciplinary research on materials for hydrogen storage and renewable energy sources at Serbia's leading national nuclear institute. - Focused on the transition to green and sustainable energy—a critical global coordination problem that mirrors the complexities of international AI governance. - Gained experience in a high-security, high-rigor scientific environment, demonstrating the technical discipline required for analyzing hardware-level AI safety and compute monitoring.	
Oct 2022 - Present	Young European Ambassador, <i>WeBalkans</i>	WB6
	- Chosen by the EU Expert Jury and the European Commission. - Established by the European Commission in 2020 as part of the EU Regional Communication Programme for the Western Balkans. - Leading regional initiatives focused on enhancing interaction between the Western Balkans and the EU, specifically within the fields of science and technology. - Represented the programme at the United Nations Youth Assembly and other international events, gaining experience in global institutional frameworks and international advocacy.	

Jun 2022 - Aug 2025	Founder and President, <i>Association for Contemporary Youth Education</i> - Founded and led a youth-driven NGO focused on bridging the gap between traditional educational frameworks and the technical requirements of an increasingly automated strategic context. - Designed and deployed multidisciplinary learning modules that integrated computational thinking and emerging technology trends with strategic problem-solving in order to prepare young individuals for professional environments. - Organised long-scale workshops and interactive activities that foster creativity, self-expression, and problem-solving among young people. - Encouraged active youth participation in the regional tech-governance discourse by creating spaces for collaborative research and personal growth.	Serbia
Oct 2020 - Jan 2024	Youth Project Leader, <i>United Nations Association in Serbia</i> - Led and coordinated large-scale international projects such as the Belgrade International Model UN and Global Diplomacy, facilitating cross-border cooperation and strategic alignment among participants from diverse geopolitical backgrounds. - Developed technical educational content and frameworks that promoted youth integration into international decision-making processes and civic governance. - Mentored emerging leaders to enhance critical thinking and analytical skills, specifically regarding the intricacies of international affairs and the governance of dual-use technologies. - Collaborated with experts from UN bodies across the Western Balkans to ensure simulation accuracy and alignment with real-world diplomatic protocols. - Chaired over 15 committees in high-level regional conferences, including the UN Security Council and Crisis Committees, simulating international responses to global security threats and diplomatic deadlocks.	
Jan 2023	Youth Representative, <i>Serbian Chamber of Commerce</i> - Selected by the Chamber's Sector for Youth Entrepreneurship to represent my independent research and the mission of my association within Serbia's primary industrial and economic advisory body. - Contributed to drafting proposals and initiatives aimed at improving the economic position of young people in Serbia. - Strengthened the presence of young innovators in the labour market by developing strategies for economic empowerment and the establishment of sustainable, future-orientated business models. - Collaborated with the Chamber to enhance youth employability, ensuring that national strategies reflect the needs of independent researchers and contemporary educational leaders.	
Nov 2020	Volunteer, <i>UNICEF Serbia</i> Volunteers on Network: Informational Campaign represents UNICEF's newly formed volunteer campaign containing of young people. Its goal is the rapid spread of information regarding mental and physical health during the COVID-19 crisis through social media.	
Oct 2020	Volunteer, <i>Center for Youth Integration</i> - Led extracurricular activities (workshops, trips, outings), conducted fieldwork with families, facilitated child transportation, and served as a communication bridge between school and home to boost attendance. - Held creative and academic workshops for first graders, provided homework help, tracked progress, and collaborated with parents and experts to plan flexible enrichment activities.
